KHATMIN THANT, M.A.Ed

Chapel Hill, NC | (919) 951-5347 | khat713@gmail.com | Portfolio

PROFESSIONAL SUMMARY

Instructional designer with a Master's degree in Educational Innovation, Technology, and Entrepreneurship from UNC Chapel Hill, specializing in online and hybrid course design, UDL/accessibility, and faculty collaboration. Proficient in Articulate Storyline 360, Rise 360, Canvas LMS, WordPress, and UX research methods. Also proficient in video editing software. Committed to quality, accessible design and evidence-based instruction.

EDUCATION

Master of Arts in Educational Innovation, Technology, and Entrepreneurship | *Learning Engineer Concentration*
The University of North Carolina at Chapel Hill |
Bachelor of Arts in Human Development and Family Sciences | *Family Life Education Concentration* | *Minor: History*
The University of North Carolina at Chapel Hill |

PROFESSIONAL EXPERIENCE

Learning and Development Contractor | *Truentity Health* Oct 2026-Present

- Transformed raw SME and customer-success recordings into organized, learner-focused e-learning materials
- Developed lesson outlines and storyboards aligned with established learning objectives
- Created job aids, quick-reference guides, and knowledge checks for healthcare training programs
- Drafted clear instructional copy and interactive activities for pharmacy operations training
- Reviewed and refined course materials for clarity, accuracy, and alignment with learning goals
- Organized and maintained course materials, source content, and project documentation

Graduate Research Assistant | *Math Potential Lab, UNC Chapel Hill* Nov 2025 -Jul 2026

- Researched evidence-based instructional strategies for K-6 mathematics, synthesizing WWC practice guides and current literature into curriculum recommendations for classroom teachers
- Conducted structured interviews with educators to identify resource gaps and translated findings into actionable design guidance; mentored undergraduate researchers on methods and content development
- Supervised a team of both undergraduate and graduate research students

Instructional Design Intern | *North Carolina Esports Academy* Aug 2025 -Apr 2026

- Designed STEM lesson plans aligned with educational standards, supervising two undergraduate interns through the full instructional design process
- Produced accessible explainer videos on AI innovations in education, applying multimedia learning and UDL principles
- Improved site functionality and UX through front-end development, reducing friction for student and educator users

Student Teacher | *Carrboro Elementary School* Jan 2025 -May 2025

- Completed a 335-hour placement in a third-grade classroom, designing and delivering lessons across core subject areas
- Designed and facilitated a semester-long instructional intervention on student anxiety management, using baseline data and evidence-based strategies to measure outcomes

SELECTED PORTFOLIO PROJECTS

UX Research Lead, Kreebo Reading App -EDUC 590 UX Research Capstone *(Spring 2026)* -Led a full-cycle UX/accessibility audit of an AI-powered K-12 reading app; produced an 18-page case study with recommendations grounded in WCAG standards, UDL, and learning science, delivered to stakeholders.

Lead Instructional Designer-Alum's Declassified -a seven-module asynchronous curriculum for first-generation college students, deployed live on GitHub Pages with active users; designed using cognitive load, spaced practice, and UDL frameworks.
